HIT-NOT 10-Port Drop-In PAD Charger

**YOU'VE ASKED FOR IT,
HIT-NOT DELIVERED!**

Designed to work with our updated Personal Alarm Device with the magnetic charge port, this 10-Port charger offers a slot for each PAD. No cables to plug in, just place the PAD into the slot, and can also be wall mounted

Streamline your HIT-NOT PAD charging with the 10-Port Drop-In PAD Charger!

Available for delivery by October 1, 2019. Contact your dealer for information!

FEATURED PRODUCT – STRUCTURE MONITOR

Does your facility have columns, walls or other structures that are in danger of collisions from fork trucks and other vehicles?

The HIT-NOT Structure Monitor will alert the fork truck driver that they are approaching a structure or protected area.

It requires a simple 110V AC outlet for power, and is easily installed on a wall, or with the included magnet mounting kit.

When paired with our Remote Event Monitoring System, it will identify the vehicles in proximity to the protected objects.

Structure Monitor
Model Number: HN-SM

“Detect and Protect”

DEALER TRAINING – INCLUDES UPDATED SYSTEMS AND REM

HIT-NOT is currently offering training for dealers at no cost in our Huntsville, Alabama facility. The two-day course includes comprehensive hands-on training, instructions for the installation of HIT-NOT equipment, live demonstrations and a tour of the manufacturing facility.

Scheduled training date:

– November 14th thru November 15th

HARDWARE REPAIR

Do you have HIT-NOT hardware that needs attention? We can inspect and return your hardware to factory specifications. Contact your dealer for information and to obtain a Return Merchandise Authorization (RMA) number.
